To Whom It May Concern:

In regards to the proposed amendment of MCR 4.101, as a Magistrate at the
62-A District

Court in Wyoming, Michigan, this rule change would leave the public with the
perception that the

Court is on the police officer's side which is hard enough to overcome when
the officer is present.

Furthermore, it would seem to be a violation of Due Process of the defendant
if he is not afforded

the opportunity to question the officer. As the complainant, the officer
should be required to

attend, without his attendance, the citation should be dismissed.

Thank-you,

Naesha Leys

Magistrate

62-A District Court
